- i18N multilingual Support, Custom Context Menu in Bizionix ERP

- Implemented Subscription Management with Payments Gateway, Automated of Account Controls
 - Activity Monitoring System to Track Employee Productivity and Work Patterns in Real Time
 - Camera Integration & PDF Editor Using OCR Technology, Pdf Annotation
 - Xampp , MySQL Workbench, Schema Design, Query Optimization
 - PDF Generation Using iText, OpenPdf, Apache poi
 - Cloudflare Tunnel, Open SSL, Ngrok
 - Currency Exchange Automation
-

PROJECTS

- **Bizionix (ERP)** : Worked on Bizionix ERP, developed Spring Boot REST APIs, handled MySQL, and supported HRMS & Payroll modules with Bootstrap/W2UI UI.
 - **AppleHRMS** : Worked on AppleHRMS, developed Spring Boot APIs, managed MySQL, and supported HRMS & Payroll modules with Bootstrap/W2UI UI.
 - **KenFed** : Worked on KenFed, a web-based business platform supporting B2B/B2C marketplace, member management, funding, and business services.
 - **Kshatriya Seva Samithi** : Worked on community service platform providing membership, matrimony, scholarships, pensions, and employment services. Developed Spring Boot APIs and managed MySQL.
 - **Kshatriya Matrimony** : Worked on matrimony application for user registration, profile management, and matchmaking. Developed Spring Boot APIs and handled MySQL database.
 - **Botbox (WhatsApp Automation)** : Worked on Botbox WhatsApp automation platform, supporting bulk messaging, customer engagement automation, and backend API development with Spring Boot & MySQL
 - **Gentree (Family Tree Application)** : Worked on Gentree, a family tree application to manage and visualize complete family relationships and member details.
 - **Kshatriya Karthika Vanabhojanalu (kkvhyd.com)** : Worked on admin and fund collection system, developed complete web application with backend APIs and database management.
 - **Sentinel E-Challan System (Ghana / South Africa Project)** : Worked on Sentinel E-Challan System, a traffic violation and fine management platform. Contributed to backend APIs, database handling, and system enhancements.
-

PRODUCT DEVELOPMENT & R&D

- Worked on end-to-end product development across multiple company applications, handling backend (Spring Boot), MySQL, UI, testing, and deployment. Independently managed R&D and full-cycle development.
 - Play-Store Ready Apps: Gentree, Sentinel E-Challan, Karthika Vanabhojanalu
 - Own Projects: HEY (Offline Bluetooth Chat App), ServiceHub (Low-cost Service Booking)
 - Embedded Exposure: Basic experience with ThinkBoard, contributed to automation project.
-

CERTIFICATIONS

- Full Stack Development (Java, MySQL, Web Technologies) – JSpiders
 - Advanced MySQL & Database Design – JSpiders
 - Web Development & UI Technologies – JSpiders
-

COMMUNITY / TECHNICAL CONTRIBUTION

- Active member of the W2UI Community (Telegram)
 - Support users by resolving queries related to W2UI Grid usage and implementation
-

EDUCATION

B.Tech (CSE) – Sree Visvesvaraya Institute of Technology and Science

2022 | CGPA: 7.04
